

New Source Review newspaper advertisements for construction permit applications, December 26, 2011. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: December 22, December 23, December 24, or December 26, 2011. Public notices are generally published every two weeks. The previous publication of public notices was December 8, 2011.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Alcoa Recycling Company with a mailing address of 1722 Henry G. Lane, Maryville, TN 37801. They seek to obtain an air contaminant permit (Division identification number: 05-0164-03/65146) for the modification of their used beverage can process for quality evaluation and supplier qualification located at 1722 Henry G. Lane, Maryville, Tennessee. The modified operation consists of a shear shredder, primary shredder and eddy current. Fabric filters are used for pollution control. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven Simpson is the assigned Division person.

For the "Maryville Daily Times"--published once on or before Thursday, December 22, 2011.

---

The applicant is Rogers Manufacturing Corporation with a mailing address of 1035 Graham Road, Ashland City, TN 37015. They seek to obtain an air contaminant permit (Division identification number: 11-0085-01/64946) for construction of a 5 Blade Component Cutter Operation located at the same address. This proposed operation would consist of a DeSawyer 2000, Carbide Saw Blades and associated equipment used to cut wood. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Cheatham County "Ashland City Times" -- published once on or before Friday, December 22, 2011.

---

The applicant is Tennessee Department of Correction (TDOC) with a mailing address of 3<sup>rd</sup> Floor Rachel Jackson Building, 320 Sixth Avenue North, Nashville, TN 37243-0465. They seek to obtain air contaminant permits for a Riverbend Maximum Security Institution (RMSI) located at 7475 Cockrill Bend Boulevard, Nashville, TN 37367-0471. Multiple operations are as follows:

- (1) Natural Gas-fired Boilers (Division identification number: 19-0008-01/65092). This existing operation consists of one (1) boiler (3.35 MMBtu/hr), two (2) boilers (5.021 MMBtu/hr each) and associated equipment used. Due to the amount and type of emissions, the use of pollution control equipment is not

proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. W. Collins is the assigned Division person.

(2) Emergency Generator (Division identification number: 19-0008-02/65093). This existing operation consists of one (1) diesel-fired engine (1,676.28 hp) and associated equipment used to produce power. Due to the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. W. Collins is the assigned Division person.

(3) Gasoline Dispensing Facility (Division identification number: 19-0008-03/65094). This existing operation consists of two (2) aboveground tanks and one (1) gasoline nozzles. Due to the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. W. Collins is the assigned Division person.

For the Davidson County "Tennessean"-- published once on or before Thursday, December 22, 2011.

---

The applicant is Woodcraft, Inc. with a mailing address of P.O. Box 1819, Morristown, TN 37816. They seek to obtain an air contaminant permit (Division identification number: 32-0142-02/65137) for construction of a Wood Fired Boiler at 105 S. Austin Rd., Morristown, TN 37814. This existing operation consists of a 350 Hp wood-fired boiler. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Hamblen County "Citizen Tribune"-- published once on or before Thursday, December 22, 2011.

---

The applicant is J. Hamm Company with a mailing address of P.O. Box 29, Crump, TN 38327. They seek to obtain an air contaminant permit (Division identification number: 36-0091-03/65131) for construction of a Compression Ignition Internal Combustion Engine at 3935 Hwy 64, Crump, TN 38327. This existing operation consists of an internal combustion engine used to turn a generator for electric power to the asphalt plant. Number 2 fuel oil is used for fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would not be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Hardin County "Courier"--published once on or before Thursday, December 22, 2011.

---

The applicant is Jr. Food Stores, Inc. with a mailing address of P.O. Box 90009, Bowling Green, KY 42102. They seek to obtain an air contaminant permit (Division identification number: 56-0070-01/65083) for an existing Gasoline Dispensing Facility at 1200 Scottsville Road, Lafayette, TN 37083. This existing operation consists of three (3) underground tanks and four (6) gasoline dispensing nozzles. Stage I and II vapor recovery are used for gasoline emission control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the "Macon County Times"-- publish once on or before Thursday, December 22, 2011.

---

The applicant is Rogers Group, Inc.- Lynchburg Quarry with a mailing address of P.O. Box 25250, Nashville, TN 37202. They seek to obtain an air contaminant permit (Division identification number: 64-0010-03/64932) for a

portable rock crushing plant on Buckeye Road, Lynchburg, Tennessee. The proposed construction would consist of a primary feeder and crusher, two screens, two secondary cone crushers, and 29 conveyors. Wet suppression control is used for pollution control of particulates. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Thomas Krinov is the assigned Division person.

For the "Moore County News"-- published once on or before Thursday, December 22, 2011.

The applicant is Tiger Market with a mailing address of 300 Seaboard Lane, Suite #3, Franklin, TN 37128. They seek to obtain an air contaminant permit (Division identification number: 75-0673-01/64967) for construction of a Gasoline Dispensing Facility at, 1209 Fortress Blvd., Murfreesboro, TN 37128. This proposed operation would consist of two (2) underground tanks and twelve (12) gasoline nozzles. A Stage I and Stage II vapor recovery would be used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Rutherford County "Daily News Journal"-- published once on or before Thursday, December 22, 2011.
