

New Source Review newspaper advertisements for construction permit applications, March 31, 2011. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: March 29, March 30, or March 31, 2011. Public notices are generally published every two weeks. The previous publication of public notices was March 17, 2011.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

FIRST APPLICANT:

The applicant is Transglobal Oil Co. dba Bread Box Food Stores, Inc., with a mailing address of 10904 McBride Lane, Knoxville, TN 37932. They seek to obtain an air contaminant permit (Division identification number: 01-0207-01/64318) for construction of a Gasoline Dispensing Facility located at 601 Edgemoor Road, Powell, TN 37849. This proposed operation would consist of two gasoline storage tanks and associated gasoline dispensing equipment. Stage I gasoline vapor recovery would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

SECOND APPLICANT:

The applicant is Rogers Group, Inc. - Oak Ridge Quarry with a mailing address of P.O. Box 25250, Nashville, TN 37202-5250. They seek to obtain an air contaminant permit (Division identification number 01-0010-01/64364) for modification of an existing Rock Crushing Operation located at 250 Union Valley Road, Oak Ridge, TN 37830. This existing operation consists of crushers, conveyors, screens, and associated equipment used to produce crushed limestone aggregate. The requested modification is to increase production, and to add a screen, and five conveyors. Wet suppression is used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For the Anderson County "Oak Ridger" - published once on or before Thursday, March 31, 2011.

The applicant is Premier Manufacturing Corporation with a mailing address of 867 Premier Way, Henderson, TN 38340. They seek to obtain air contaminant permits for a Wire Products Fabrication Facility located at the same address as follows:

(1) Spray/Wash Zinc Dip Coat Line (Division identification number: 12-0036-02/64341). This existing operation consists of a prewash vessel, acid pickle dip tanks, zinc dip tanks, zinc spraying apparatus, and associated equipment used to process wire products. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

(2) Natural Gas-Fired Curing Oven (Division identification number: 12-0036-03/64342). This Existing operation consists of a natural gas-fired curing oven and associated equipment used to cure powdered coatings. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

(3) Natural Gas-Fired Drying Oven (Division identification number: 12-0036-04/64344). This Existing operation consists of a natural gas-fired drying oven and associated equipment used in the drying process. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the "Chester County Independent"--published once on or before Thursday, March 31, 2011.

The applicant is Minco, Inc. with a mailing address of 510 Midway Circle, Midway, TN 37809. They seek to obtain an air contaminant permit for modification of a fused silica manufacturing operation at the same address, as follows:

- (1) Existing fused silica processing operation (32-0129-01/64384)
- (2) Existing raw material handling and storage operation (32-0129-03/64384)
- (3) Existing crushing and screening line No. 2 (32-0129-46/64384)
- (4) Existing primary crushing line No. 2 (32-0129-47/64384)

This existing operation consists of crushing, screening, and blending equipment used to process raw materials for fused silica production. The requested modification is the addition of two electric arc furnaces to source 01. Baghouses are used for pollution control of particulates (TSP). The proposed baghouse would be used as control for the additional two electric arc furnaces. There would be physical construction. Regulated air contaminants emitted by this source would increase. Ms. Olga Jacobsen is the assigned Division person.

For the Greene County "Greeneville Sun"--published once on or before Thursday, March 31, 2011.

The applicant is Surface Elements, Inc. with a mailing address of P.O. Box 82, Loretto, TN 38469. They seek to obtain an air contaminant permit (Division identification number: 50-00080-01/64043) for an architectural panel manufacturing operation located at 22 Yocom, St. Joseph, TN 38481. This modification consists of increasing the production of architectural panels using resin and stone filler. There would not be physical construction. Regulated air contaminants would be emitted by this source. Exhaust filters would be used for pollution control. Mr. Thomas Krinov is the assigned Division person.

For the Lawrence County "Democrat-Union"- published once on or before Thursday, March 31, 2011.

The applicant is City of Bristol Tennessee, with a mailing address of 212 Blackley Road, Bristol, TN 37620. They seek to obtain an air contaminant permit (Division identification number: 82-0080-06/64244 for construction of a Gasoline Dispensing Facility located at the same address. This existing operation consists of one gasoline storage tank and associated gasoline dispensing equipment. Stage I gasoline vapor recovery is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For the Sullivan County "Bristol Herald Courier" - published once on or before Thursday, March 31, 2011.
