

PUBLIC NOTICE

Tennessee Valley Authority – Gleason Combustion Turbine Plant has applied to the Tennessee Air Pollution Control Division (TAPCD) for the renewal of their major source [Title V operating permit \(97-0108/562669\)](#) subject to the provisions of paragraph 1200-03-09-.02(11) of the Tennessee Air Pollution Control Regulations (also frequently referred to as Title V regulations), and for renewal of their [Phase II Acid Rain Permit \(97-0108/563252\)](#), under the Title IV Acid Rain Program (40 CFR Parts 72, 73 and 76). A major source (Title V) operating permit and Title IV Acid Rain Permit are required by both the Federal Clean Air Act and the Tennessee Air Pollution Control Regulations.

The applicant is Tennessee Valley Authority – Gleason Combustion Turbine Plant with a site address of 1166 Janes Mill Road, Gleason, TN 38229. They seek to renew their Title V operating permit and their Phase II Acid Rain Permit for their electric power generating facility. The facility consists of three simple cycle combustion turbines fired with natural gas, a fuel heater, one emergency diesel engine, and other associated equipment used in the production of electricity.

EPA has agreed to treat the draft Part 70 and Part 72 permits as proposed Part 70 and Part 72 permits and to perform its 45-day review provided by the law concurrently with the public notice period. If any substantive comments are received, EPA's 45-day review period will cease to be performed concurrently with the public notice period. EPA's 45-day review period will start once the public notice period has been completed and EPA receives notification from the Tennessee Air Pollution Control Division that comments have been received and resolved. Whether EPA's 45-day review period is performed concurrently with the public comment period or after the public comment period has ended, the deadline for citizens' petitions to the EPA Administrator will be determined as if EPA's 45-day review period is performed after the public comment period has ended (*i.e.*, sequentially).

The status regarding EPA's 45-day review of this project and the deadline for submitting a citizen's petition can be found at the following website address:
