PUBLIC NOTICE OF
PUBLIC HEARING AND INTENT TO ISSUE PERMIT
FOR A SOLID WASTE DISPOSAL FACILITY

The Tennessee Department of Environment and Conservation, Division of Solid Waste Management (DSWM), will conduct a public hearing to receive comments on its tentative decision to issue a solid waste disposal facility permit modification from a private landfill to a commercial landfill to Memphis Wrecking Company for construction, operation, closure, and post-closure care of the existing Class III landfill for the disposal of construction/demolition waste and/or certain wastes having similar characteristics and approval in writing from the Department of Environment and Conservation.

The hearing, which is being scheduled at the request of the applicant, will be held on Thursday, February 9, 2012 in Cunningham Community Center, 3773 Old Allen Road, Memphis, Tennessee. From 5:00 p.m. to 5:45 p.m. (CST), citizens are invited to inspect and discuss the permit application, draft permit, fact sheet, plans, and other materials with the DSWM and with representatives of the applicant. There will be an opportunity for public comments to be recorded or written and submitted from 5:00 p.m. to 5:45 p.m. The formal hearing will begin at 5:45 p.m. The DSWM will explain its tentative decision to issue the permit, after which the applicant's representative will describe the proposed facility action/expansion. DSWM will then receive oral comments on the draft permit from the public.

The facility, identified as Frayser Business Center Demolition Landfill, DML 79-0123, is located in Shelby County, at 2948 Thomas Street, Memphis, Tennessee (latitude 35°12'19" N/ longitude 90°02'00" W). The proposed operational change would result in receiving waste for disposal as a commercial landfill operation. No hazardous wastes, as regulated by the Tennessee Hazardous Waste Management Act (Tennessee Code Annotated, Section 68-212-101, et. seq.) and the Rules adopted pursuant to the Act, shall be accepted for disposal at this facility. It is the present intent of DSWM, pending consideration of any contrary technical information received during the public comment period ending on March 5, 2012, that this permit be issued.
