**JOBS FORECAST NEWS  
JOBS TO 2018—LWIA 10**

**DECEMBER 2011**

**LWIA 10: Giles, Hickman, Lawrence, Lewis, Marshall, Maury, Perry, and Wayne counties**

Finding a career with a future is easier if you know what to look for. Good information on jobs and how to get them is available from school counselors, Tennessee Career Centers, and private companies. Learning about education, training, and experience requirements will also get you closer to the job you want. Publications like this one will aid you in your search as well.

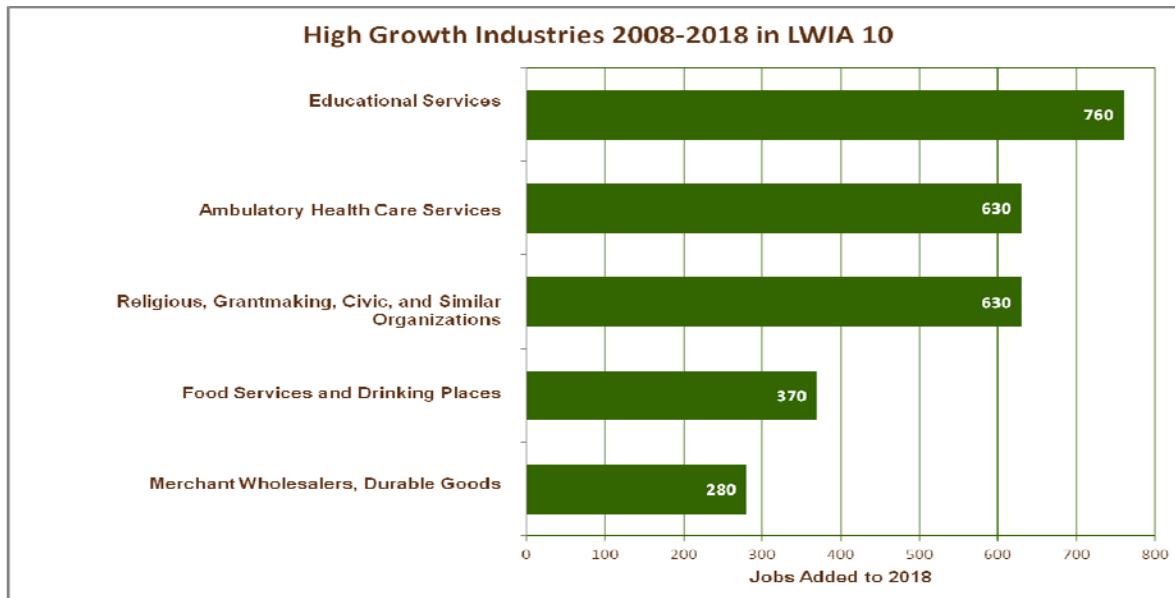

The industries and careers listed in this newsletter were chosen because they offer some of the best and most numerous job opportunities that will be available in this area for the next seven years. The information on average pay was taken from the Occupational Employment Survey that Tennessee conducts twice each year.

The chart below lists the five industries that are expected to see the greatest amount of growth through 2018 in this part of the state. On pages two and three you'll find data on job opportunities and the training they require. See page four for local career center and Internet addresses to help you find a job, career, or training.

A new addition to this publication is the Green Jobs information located on the third page. These are the largest occupations in this part of the state that have job responsibilities in the areas of energy efficiency, environmental protection, clean fuels and other innovative practices. It was collected over the past year from a survey conducted by TDLWD.

**High Growth Industries 2008-2018 in LWIA 10**

Inside this issue:

- Top Jobs by Education Level **2**
- Top Jobs by Education Level (continued) **3**
- Helpful Internet Addresses **4**
