

ATTENTION TENNESSEE HUNTERS

If you hunt out-of-state, please be aware of Tennessee's carcass importation rule. This rule is in effect to protect the state from the unintentional introduction of Chronic Wasting Disease (CWD).

Neighboring states that are CWD positive have restricted zones. If you harvest a deer from any of the below highlighted areas, the deer must be properly processed (see rule 1660-01-15-.02 below) before bringing it back into Tennessee. The carcasses of deer harvested outside of these highlighted areas may be imported without restrictions. All other CWD positive states and provinces restrict the carcass importation from the entire state (or province).

Restricted Zones in Neighboring States

- Illinois {north of Interstate 80 and all of LaSalle and Grundy Counties}
- Maryland {Allegany Co.}
- Missouri {Linn and Macon Counties}
- Virginia {Frederick & Shenandoah Counties}
- West Virginia {Hampshire and Hardy Cos.}

Entire State and Province Bans

- | | |
|------------|--------------|
| Colorado | North Dakota |
| Kansas | Oklahoma |
| Michigan | South Dakota |
| Minnesota | Utah |
| Montana | Wisconsin |
| Nebraska | Wyoming |
| New Mexico | Alberta |
| New York | Saskatchewan |

Areas where carcass importation is restricted by the Carcass Importation Rule (1660-01-15-.02)

**CWD CARCASS
IMPORTATION BAN**

1660-01-15-.02 IMPORTATION OF WILDLIFE CARCASSES, PARTS, AND PRODUCTS.

- (1) No person may import, transport, or possess in Tennessee a cervid carcass or carcass part from any area that has a known case of chronic wasting disease except as provided herein:
- (a) Meat that has bones removed.
 - (b) Antlers, antlers attached to cleaned skull plates, or cleaned skulls (where no meat or tissues are attached to the skull.)
 - (c) Cleaned teeth.
 - (d) Finished taxidermy and antler products.
 - (e) Hides and tanned products.
