

2022-23 CTE Programs of Study

Tennessee's career and technical education (CTE) programs of study are meant to provide a relevant framework of industry-aligned, rigorous courses that progress a student in knowledge and skills year after year. They provide invaluable opportunities for students to experience a subject that they are passionate about and explore interests that lead to postsecondary learning and future career paths. These sequenced courses also reflect and support the three-credit elective focus requirement for graduation. Level 1 courses are encouraged to be taken by students in ninth grade; however, districts may make scheduling decisions that work best for their communities and students.

Early postsecondary opportunities (EPSOs), such as dual enrollment, dual credit courses, and college level examination program exams (CLEP) are also valuable opportunities for all students and should be provided within the program of study. The **dual enrollment course codes** may substitute for the Level 3 or 4 course offerings in any aligned career cluster's programs of study where those course codes represent postsecondary courses. Each program of study has four dual enrollment course codes.

Career Exploration (C25X00) is available to orient eighth and ninth-grade students to high school, postsecondary, and career options and develop employability skills. This course can serve as a prerequisite for any CTE course and program of study; however, it is not a required part of any program of study and should not be counted toward CTE concentrator status.

Work-Based Learning: Career Practicum (C25H16) is available to be a substitute for any level 4 course offering. However, this course will not count toward concentrator status but will count toward completer status.

Industry Credentials are aligned to programs of study. Due to the number of available industry credentials, the listing is no longer part of this document. To review promoted industry credentials by programs of study, visit <https://www.tn.gov/education/career-and-technical-education/student-industry-certification.html>

For additional information about courses or programs of study, please reach out to CTE.Standards@tn.gov or visit our webpage at <https://www.tn.gov/education/career-and-technical-education.html>.

July 2022 Updates

- Updated course code for Capstone Supervised Agriculture Experience (SAE) to be **C18H58**.
- C21H25 moved to course for elective credit for Advanced Manufacturing alignment with STEM career cluster

¹ Local dual credit and/or dual enrollment opportunities exist for this course.

² May be taught for 1 or 2 credits.

Available courses for elective credit in this cluster:

- **Work-Based Learning: Career Practicum** (C25H16) course may substitute for the Level 4 offering in all programs of study but does not count toward concentrator status.
- **Computer Integrated Manufacturing (PLTW)** (C21H25) is a supplemental course that can be offered in addition to courses within these programs of study but does not count toward concentrator status.
