Usage Instructions:

There are two different manufacturers available through SWC 221.

- **Goodyear Tire and Rubber Company**
- **Bridgestone/Firestone**

This statewide contract is set up as a discount from catalog contract per tire category. There are many Edison contracts under SWC 221 including the independent dealers who have been awarded a separate state contract tied to each manufacturer. This is because contracts have been established with Goodyear's and Bridgestone's independent dealer

network. Bridgestone/Firestone is set up for central billing and all contract release orders are from one contract number for company stores, which can be found within this document. Corporate stores for each manufacture are set up for central billing and have one contract number assigned for each manufacturer's corporate store. For example, all Goodyear corporate stores are assigned the same contract number. Independently owned tire dealer stores must be authorized to sell tires under SWC 221 and must submit the following documentation to the Central Procurement Office:

- Signed Dealer Agreement
- Copy of Certificate of Liability Insurance
- Copy of Registration with the TN Dept. of Revenue for sales and use tax

Once paper work is received and approved, the independent tire dealers are added to the dealer spreadsheets. Please note that all independent dealers will not be awarded a contract.

Tire dealers highlighted in green have submitted their paperwork and in order to be authorized to sell tires under SWC 221.

Special Instructions:

To use SWC 221, you will start by identifying the tire that is needed and reviewing the pricing offered by each tire manufacturer. Once a tire is selected, go to the authorized dealer list and find the dealer nearest to your location. Next, contact the contracted tire dealer to make sure the product is in stock, and acquire an estimated delivery time. Create a contract release order from the contract assigned to the selected tire dealer.
