APPLICATION FOR WILDLIFE REHABILITATION PERMIT
(Please print)

WR-0698
(Rev. 12/21)

Regulation Summary: Wildlife rehabilitators house and treat injured, diseased and displaced Class II Wildlife which are temporarily incapable of surviving in the wild with the objective to return such wildlife to their natural habitat within 90 days. Non-releasable rehabilitated Class II Wildlife may be transferred to facilities or persons possessing Wildlife Educational Permits. Class II species include most terrestrial species native to Tennessee excluding white-tail deer, bears and wild turkeys (see T.C.A. 70-4-403.) State law also prohibits possession of skunks. There is no charge for Wildlife Rehabilitation Permits for non-profit operations. A free permit is also required from the U.S. Fish & Wildlife Service Migratory Bird Permit Office in Atlanta for migratory species.
